Associate of Applied Science Degree **Program Descriptions**

ASSOCIATE OF APPLIED SCIENCE DEGREE IN COMPUTER NETWORK TECHNOLOGY

The Associate of Applied Science Degree program prepares the student with a comprehensive set of skills necessary to become employable as a Computer or Information Technology Services Administrator or Manager.

The Associate of Applied Science Degree in Computer and Network Technology (AAS CNT) program can result in two (3) CompTIA certifications and one (1) Microsoft Certified Professional (MCP) certification. CompTIA certifications are known among Information Technology professionals as foundational to an IT professional's career.

In addition, the student will develop the keyboarding skills and technical skills needed to be an efficient worker in today's computerized workplace.

Students who enroll in the AAS CNT program will have the opportunity to learn PC hardware support skills. They will gain the ability to design and implement small office-home office networks. They will learn how to install, configure, and maintain a variety of Windows operating systems in a stand-alone, workgroup, and domain environment. Students will also learn key skills in creating and managing virtual machines.

AAS CNT Graduates will demonstrate that they are ready for supervisory or management responsibilities based on the additional investment they have made in their general education. While earning an Associate of Applied Science Degree, graduates will develop skills in critical thinking, business communications, and business math. These skills will help the student to develop a deeper understanding of how businesses function, the roles and responsibilities assumed by managers in today's business world, and the impact that our history and our government have on business operations.

The program contains 2 required courses for employment preparation, job search, and career development. These courses provide softskills that are necessary for the graduate to obtain the job and pursue the career path of their choice.

Students enrolled in the AAS degree will receive a lap top computer provided by Asher College upon the successful completion of one third of the program.

The Associate of Applied Science Degree in Computer and Network Technology program includes the following courses:

PHARMACY TECHNICIAN

The Pharmacy Technician (PharmTech) program prepares the student with a comprehensive set of skills necessary to become employable as a Pharmacy Technician working in a variety of settings including hospitals, nursing homes, retail pharmacies (drugstore chains, grocery stores), insurance companies, mail-order and web-based pharmacies, pharmaceutical companies, wholesalers, and government agencies.

The job responsibilities will vary depending on the type of employment secured. Pharmacy Technicians fill prescribed medications for patients, provide customer service and operate a cash register. In most pharmacies, the Technician is the direct customer service link to the public. Pharmacy Technicians establish and maintain patient record files, submit insurance claim forms, and manage prescription and over-the-counter medication inventories.

The program contains 2 required courses for employment preparation, job search, and career development. These courses provide soft skills that are necessary for the graduate to obtain the job and pursue the career path of their choice

Graduates will qualify to work as a Pharmacy Technician in both retail drug store and hospital pharmacies.

The Pharmacy Technician (PharmTech) program provides students with the career knowledge to:

- Adhere to HIPAA, Federal and State regulations concerning confidentiality in the medical field
- Fill prescriptions under the direct supervision of a pharmacist
- Utilize software applications relevant to the pharmacy
- Understand Brand and Generic Medications, as well as OTC-Over the Counter
- Classifications of Drugs and scheduled drugs

PRIOR CREDIT EVALUATION

All previous education and training of students receiving VA benefits will be evaluated, credit granted when appropriate, the program length reduced proportionately, and the student notified. Tuition will be prorated on a percentage of the course(s) accepted. Courses accepted for prior credit may affect federal financial aid and VA certification.

No more than 33% of courses from the program's content may be acceptable for transfer. For courses accepted for credit, tuition will be prorated on a percentage of the course(s) accepted. **Asher College reserves the right to accept or reject any or all credit hours earned at other institutions.** Students may not transfer credit hours for courses taken at another institution and also receive credit for the same course taken at Asher College. Transfer credits must be directly applicable to courses required in the selected Asher College program. Official Transcripts must be on file before transfer credit can be approved. Unofficial transcripts are acceptable for VA education benefits (GI Bill) student files ONLY.

The VA student must complete a *Prior Academic Credit Evaluation Form* and submit transcripts for both military service **and** for all coursework taken at a non-Asher College institution to the Asher College School Certifying Official (SCO). The SCO will notify the student in person and in writing within 5 school days of receiving the above information of the prior credit evaluation findings. If a student believes that their credit was not evaluated properly, the student is encouraged to discuss the situation informally with their Admissions Specialist and SCO. If the inquiry is resolved by the parties, the matter is deemed closed. If the inquiry is not resolved at this level, the student may request an appeal to the IT or Health Services Director and then to the Campus Director, respectively.

Note: If the VA student fails to provide the SCO with the Prior Credit Evaluation Form, both military and college transcripts, and Certificate of Eligibility within 30 days of the program start date, the SCO will terminate certification until the proper paperwork is submitted.

ATTENDANCE POLICY FOR VA STUDENTS

Regular attendance is essential for academic progress and success in a career. Absences may jeopardize a student's ability to complete their program in a timely manner. All students are encouraged to complete the specified hours for their program by the end of each week. If a student is unable to attend, or leaves campus early on a given day(s), they should contact their instructor or any appropriate staff member. Students are encouraged to make up missed attendance. The instructor will assist in creating a makeup plan. Attendance is checked on a weekly basis.

Asher College requires completion of all courses for graduation. Asher College encourages 100% attendance, and requires 80% attendance for graduation.

VA students' attendance will be monitored on a weekly basis. **If the student is not meeting 80% attendance during any 4-week period, they will be placed on attendance probation for the next 4 weeks.**

If at the end of the attendance probation period, the student is still not meeting minimum satisfactory attendance requirements, **the SCO will terminate certification.** VA education benefit certification can be reinstated if the student subsequently demonstrates satisfactory attendance requirements.

In the event a student is placed on probation for attendance a second time, **the SCO will terminate certification.** Students can appeal this decision in writing to the Campus Director. The student will be notified within 14 business days of a decision at such time the resolution will be final.

Any student who has an unexcused absence of fourteen (14) consecutive days will be automatically withdrawn.

Students are required to log in and log out using the computer located on campus. The computer tracks the amount of time a student spends on campus. This information is stored in a student database from which attendance reports are generated. If the student does not log in, they will be required to sign the attendance roster and have an instructor initial for confirmation.

Students are expected to call or e-mail the campus if they are unable to attend the required hours for the week in order to obtain an excused absence.

At any time during the program a student will be placed on warning status and can result in probation status for violation of attendance.

Attendance violation is, including but not limited to:

- **Ten (10) Unexcused absences**
- **Logging in and leaving the campus without logging out. If a student must leave campus, they are required to log out. The student can log in upon return. A student will be logged out if they cannot be located on campus.**
- **Asking another student to log them in or out.**

If a student is in violation of Attendance, they will be placed on warning status. **Failure to successfully return to good standing from warning will lead to probation. Failure to successfully return to good standing following probation will lead to program termination.**

If a student is caught logging in and then leaving the campus, the student will be placed on probation for misconduct for 4 weeks. If the student fails to comply with this policy during this probationary period, **the SCO will terminate certification.** If the student maintains satisfactory conduct during this probation period, the student's probation status will be lifted and certification will be reinstated.

In the event a student is placed on probation for misconduct a second time, **the SCO will terminate certification.** Students can appeal this decision in writing to the Campus Director. The student will be notified within 14 business days of a decision at such time the resolution will be final.

BREAK PAY

The VA no longer authorizes break pay (effective August 1, 2011). If a VA student is going to be absent beyond 14 consecutive days, he/she must request a leave of absence per to the Leave of Absence policy in the *Program Catalog and Student Handbook*. **VA students will not receive VA benefits during leaves of absence.**

MILITARY DEPLOYMENT

Active Duty/Selected Reserve VA students **must** provide the SCO copies of their orders for military training/deployment for their GI Bill file. The VA will be notified of deployment and pay the student per VA policy.

SATISFACTORY ACADEMIC PROGRESS (SAP) POLICY

VA students are evaluated on a monthly basis for attendance and SAP. Successful VA students will have completed all courses in the program with a cumulative GPA of 70% or higher, earning all the required quarter credits for graduation and have 80% of attendance.

The following steps will be taken for VA students not meeting this requirement:

1. The student will be placed on academic warning and begin the Individualized Educational Plan (IEP) process outlined in the section entitled Unsatisfactory Academic Progress Requirement / Probationary Status in the Program Catalog and Student Handbook. ***Exception: If a VA student does not pass a course, they may not be allowed to move to the next module.*** The IEP process can begin at any time at the discretion of the Program Director. This period will last for 30 calendar days.
2. If a VA student still does not meet the minimum academic requirement of 70% grade point average (GPA), he/she will be placed on probation for 30 calendar days and the VA will be notified.
3. However, if at the end of the probation period the student's GPA still does not meet the minimum satisfactory academic requirement, **the SCO will terminate certification.**
